

# THE LOGAN®PROXTALKER® COMMUNICATION DEVICE

OPENING DOORS  
TO COMMUNICATION

An easy and quick way to bring verbal communication into the classroom

Simply press the tags on the buttons to say what you want

making the most of every communication opportunity

"using tactile symbols the ProxTalker is accessible for our VI students"

"I want orange juice please"

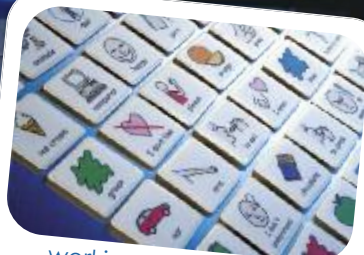

the speak all tag lets you say the sentence at the touch of one button

even water play can be fun and verbal

enables turn taking and directional play

working with Widgeo to create dedicated classroom resources

Alice knew it could be used like a PECS book and was independent right away

The Logan®ProxTalker® empowering teachers and parents to support their children's communication in all settings

The ProxTalker® enables independent verbal picture communication in 1:1 or group setting for users of all ages with a wide variety of difficulties: autism, Down's syndrome, learning or acquired language difficulty or delay.

It is in use as a communication tool in a wide range of settings from early intervention right through to residential settings

**Easy to use** - the proxtalker comes with a set of pre-recorded sound tags to make use out of the box immediate

**Easy to personalise** - using the blank sound tags and our unique programming tags the unit can be easily adapted to grow with the user.

**Flexible labelling system** - you can make tags identifiable with whatever suits the users needs: words, photos, symbols, objects of reference.

**Flexible recording** - you can record a single word or up to 8 seconds of sound on each tag letting users work at a level that suits them

**Easy to carry** - stored in our custom made backpack the ProxTalker can go everywhere with the user or class making sure they can say what they want wherever they are

**NEW** - the Visual Suite DVD from silver lining is an easy way to use your own or the library of 15,000 photos to create personalized ProxTalker stickers. Simply load the DVD and start filling the readymade ProxTalker templates with your own ideas.
