

# ProxTalker

OPENING DOORS TO COMMUNICATION

## The Logan Proxtalker communication device

bridging the gap from silent pictures to dynamic screen devices or iPad

The ProxTalker offers unique multisensory support to the communication process, for people of all ages who need tangible objects or pictures to signpost vocabulary. Easy to use technology means the user can change and grow at their own pace. Use it as a 1:1 communication aid or as a tool to engage in school, work or home environments.

### In 3 easy steps you can make your ProxTalker personal

- **Select label for sound tag** - an object, photo or symbol to match individual need
- **Attach to ProxTalker tag** - small or large
- **Record the sounds you want** - sound, word, or sentence

Just **Pick** a tag, **Press** it on a button to **Play** the recorded sound, word or sentence.

build verbal communication from word to sentence level

verbalize daily schedule

support literacy with interactive story telling

progress from object to symbol labels

verbal support for math problem

support commenting activities with sound tags

### Try me...

Our Try Me programme lets users, parents and professionals have hands on experience of the ProxTalker and the ProxPAD. Apply online or download an agreement form and send it to us. We will do the rest.

The Logan Proxtalker is manufactured and distributed by **LoganTech**

## The Logan ProxPAD so much more than hitting a button to make a choice

The Logan ProxPAD choice maker offers a unique **TOUCH or SWIPE** action making choice accessible for a wide range of users of all ages. Labelling sound tags with tangible objects or large pictures makes it ideal for those with VI and other sensory needs.

- Touch or swipe tags on the ProxPAD to play your recorded vocabulary
- Generate tags to match physical and visual abilities in creative ways to support communication either 1:1 or in a group
- Create resources for any activity and have them at your fingertips to offer real verbal choices
- Use creatively in school wide settings to include non-verbal students everywhere

### Making resources for the ProxTalker and ProxPAD is easy and fun

- **FREE ProxTalker App LITE** - the easy way to customize tags with photos and images
- **Boardmaker Online** - the ProxTalker is now supported by PCS use our templates on Boardmaker Online to build your own resource library and share others
- **Resource Exchange Network** - ready-made resources are available to download from our website
- **Ready-made tag packages** from LoganTech:
  - **Talking My Way sets** – tangible objects with matching symbol sound tags
  - **Educational tag set** – pre-recorded vocabulary ideal for the classroom

The Logan ProxPAD is manufactured and distributed by **LoganTech**
